CARE PLUS CRITICAL ILLNESS RIDER - POLICY SPECIFICATION

Issuer: Care Health Insurance Ltd. | Rider Version: 2023 | UIN: CHIHLIA20021V012023

SECTION 1: BENEFIT AND COVERED CONDITIONS

Upon first clinical diagnosis of any of the 15 specified Critical Illnesses during the policy term, the Company shall pay a lump sum benefit equal to 100% of the Critical Illness Rider Sum Insured. Covered illnesses include: Major Cancer of specified severity, First Heart Attack of specified severity, Open Chest CABG, Kidney Failure requiring regular dialysis, Stroke resulting in permanent neurological deficit, and Major Organ or Bone Marrow Transplant.

SECTION 2: MANDATORY SURVIVAL PERIOD

2.1 30-Day Survival Period: The Insured Person must survive for a minimum period of 30 consecutive calendar days from the date of first diagnosis of the critical illness or surgical procedure before the lump sum benefit is payable. If the insured person passes away within 30 days of diagnosis, no rider benefit is payable.

SECTION 3: WAITING PERIODS FOR CRITICAL ILLNESS

3.1 90-Day Initial Waiting Period: A mandatory initial waiting period of 90 days applies from the rider inception date. If any critical illness signs, symptoms, or diagnosis occur within 90 days of cover commencement, the rider benefit shall not be payable.

3.2 Pre-Existing Critical Illness Exclusion: Pre-existing critical conditions or illnesses declared at proposal are excluded for a continuous period of 36 months.

SECTION 4: SPECIFIC EXCLUSIONS

4.1 Excluded Conditions: No benefit shall be paid for: (a) non-invasive cancers, carcinoma-in-situ, or early stage tumours, (b) critical illnesses arising directly or indirectly from alcohol dependence, narcotics, or substance abuse, (c) self-inflicted injuries or suicide attempts, (d) conditions caused by nuclear contamination or war.

SECTION 5: CLAIMS AND VERIFICATION PROCEDURE

5.1 Claim Notification: The Company must be notified in writing within 15 days of diagnosis.

5.2 Proof of Claim: Documents required include: official claim form, attending physician's clinical summary, histopathology and biopsy reports, MRI/CT scans, and hospital discharge summaries confirming permanent functional impairment.
